MONTANA CITY/TOWN PLATS 2000

PREFACE

The Montana City Plat Book is a publication containing 8½"x 11" plats of 129 incorporated cities, and many unincorporated areas within Montana. The incorporated cities are further classified by "Urban/Urbanized Areas" and are shown on 22"x 30" plats located in pockets in the center of the book. Plats are revised on a continual basis to reflect current status in road alignment, surface type, bridges and system changes.

These plats show city streets and surrounding county roads on a land grid of township, range, and section lines. Cultural features adjacent to roads are displayed by symbols. The plats also indicate national forests, federal reservations, lakes, state forests, reservoirs, streams, and railroads. Drainage and alignment of roads are checked with aerial photographs and GIS coverage when needed.

INCORPORATED CITIES/TOWNS
